"Monte Cristo", one of the best pictures that has been seen in Farmington for a long time, was the attraction at the Monarch last Thursday and Friday nights. A large crowd was highly entertained by the pictures the first night, but there was a small audience present the second night, due to the hard rain.

Rain began to fall last Friday afternoon, and continued uninterrupted throughout the night. The splendid downpour could hardly have been more needed, and was a real blessing. The rain also brought a very noticeable lowering of the temperature, which has continued since, and has caused fires and winter wars to become popular and comfortable.

Only a moderate sized crowd was out to see the ball game last Friday afternoon at Desloge, between the St. Louis Cardinals and the local team, though the play was full of interest. The weather was threatening rain when the game started, and gradually grew worse until the game was called at the end of the sixth inning, with the score 7 to 4 in favor of the Cardinals. Tim McCabe won the laurel wreath for the home boys, playing like a big leaguer throughout. In fact he was a big leaguer until a few years ago, when his arm failed, causing him to retire from professional playing. The four scores entered to the credit of the home team was due to Tim's splendid stick work. The bases were full when Tim came to bat, and landed the ball over the fence. Then, too, he made a sensational stop of a hot grounder from his position on first, which was the most outstanding play of the game. Young Edgar, of Ironton, also made several brilliant plays at short, as is usual with him.

LAUNDRY TALK

(By B. T. Gortges.)

(Continued from last week.) One reason why some people do not rinse their clothes well is because it requires so much work to get the water. Our steam pump has a 3-inch cylinder, a 24-inch stroke and makes 20 strokes per minute. It elevates thousands of gallons each day into a tank from which it flows by gravity into our washing machines.

FARMINGTON LAUNDRY.
(To be continued.)

Dr. C. A. Tetley, chairman of the St. Francois County Democratic Committee, was in St. Louis Tuesday making arrangements to secure speakers in this county during the present campaign. He secured promises that Ex-Gov. Gardner, Senator Willey, Walter L. Hensley and one or two speakers of national reputation would be sent into this county for speeches on dates that will be announced later.

Again last week several batches of correspondence were crowded out of The Times, on account of insufficient space. All such correspondence appears this week, with a line at the top showing they were written for publication last week. We want our correspondents, as well as all our readers, to understand that we use every possible effort to prevent such occurrences, as we always want only late news. We hope to be able to prevent such occurrences in the future.

Mrs. John Simmons, who recently shot Otto Mayer in the arm, on the square of this city, called at this office Saturday to let us know that she had not departed for St. Joseph, as The Times had stated in its write-up of that affair she had done. She did leave the following day, however, for her former home for a visit, but stated that she would be back for her trial, which will come up at the November term of circuit court. She also stated that the shooting was not due to her "ungovernable jealousy," as was stated in The Times article; that she was not the least excited when she fired the shot, and knew exactly what she was doing; that she had warned Mayer not to induce her husband from home, and had told him of what she might do if he did not stay away from Simmons.
